

Self-Management for Amputees using Rehabilitation Technology (SMART)

Researchers from the *University of British Columbia (UBC)* are looking for *patients with lower limb amputation*.

You may be eligible if you are:

- *at least 50 years of age;*
- *using a prosthesis for at least 2 months up to 5 years;*
- *willing to talk about your rehabilitation experiences.*

What is involved?

- *The **purpose** of this study is to explore ways of improving educational programs for patients with lower limb amputations.*
- *We are inviting people to participate in a **90-minute focus group discussion** with 5-7 other patients, led by healthcare providers and a research assistant.*
- *Refreshments and a \$25 gift card honorarium will be provided.*

Where: GF Strong Rehabilitation Centre, Vancouver, BC

Who To Contact: To participate or learn more, contact Elham Esfandiari at 604-714-4108 or elham.esfandiari@ubc.ca
